

Item for the Daily Log - 9 December 1952

Mr. King of the office of Senator Bridges called to inquire whether we were receiving many inquiries from Congressional offices as to our position vacancies for jobs held by employees from the different states. I informed Mr. King that we had received one such query from Pennsylvania and that ~~he was aware of the problem~~ because of our law and the security involved, we could not give any information as to positions, salaries, or incumbents. Mr. King appeared to concur in this position and said he would attempt to aid us should any CIA patronage arise on the Hill.
